Chevron

Chevron is one of the largest integrated energy companies in the world. We conduct business in approximately 180 countries, and are engaged in every aspect of the oil and natural gas industry, including exploration and production, refining, marketing and transportation, chemicals manufacturing and sales, geothermal and power generation. Our vision is to to be the global energy company most admired for its people, partnership and performance.

Chevron technology organizations provide solutions to support the diverse businesses of Chevron Corporation. IT employees support a spectrum of applications and investigate emerging technologies to provide a competitive edge to Chevron's businesses.
